

the executive -

sound of leadership

... an exclusive leadership-development event
for
management boards and executives

at Theater an der Wien
Monday, January 28th 2019
at 14:00h

Leadership-Excellence

Experience a distinctive, powerful and internationally successful Leadership-Development Program for **improving team performance and innovations** in your business!

effective

- Experience and recognize qualities of leadership of successful leaders and their impact in the very moment!

productive

- Try and develop new possibilities of leading to support developing the full potential of your employees / teams!

compact

- Directly experience the transformation and success in a safe and closed environment intellectually and intuitively!

With the Pratobello-Method (prato = Wiese; bello = schön) **you and your leaders will jump to a new level of excellence incomparably fast!**

Testimonials:

„The sound of leadership' is the most unique and powerful leadership seminar I have experienced. To conduct you need to be a true leader, paint your vision and connect with your team. This seminar will transform the way you lead.“

Dr. Darryl McConnell Research Site Head Boehringer Ingelheim Regional Centre Vienna

„A great concept without any HR esotericism. Particularly for top managers because it teaches self-awareness in a very subtle way.“

Dr. Peter Malanik, Senior Client Partner Korn Ferry Vienna, former CEO Austrian Airlines

„The program „the sound of leadership“ according to the Pratobello-Method is both a practical and useful illustration on important aspects of the leadership process: connection, self-awareness, collaboration and teamwork.“

Beate Karlsen, programdirector of Solstrandprogrammet, an executive education program, AFF at the Norwegian School of Economics

setting the tone!

Leaders verify and develop their leadership-skills through **conducting professional musicians** (ability to read music, or previous musical educations are not required).

WHY music:

- **Music only happens in the moment:** in the role of a conductor you'll experience your impact and development in real time. Music is "understandable" for all human-being, however, to truly communicate it requires story-telling on a meta-level!

WHY orchestra:

- **An orchestra represents the essence of social systems:** In the orchestra a clear set of structures and competences dominates. In this setting, the rules and **functionalities of a high-performance team** are experienced.

WHY orchestra-musicians:

- **Direct feedback from your employees:** masks, empty phrases or inappropriate strategies do not work - in this setting we musicians will experience the impact of your leadership!

SCHEDULE:

13.30h	tour through the opera house (optional)
14.00h	introduction
